Medical Information.

This is an optional section of the membership form. Members who have any medical condition which they feel puts them at some sort of risk while training or competing may wish to use the medical info section to provide the details which will then be recorded on the Club database and shared with coaches.

Next of Kin.

In the unlikely event of health problems or accident during a club activity, members may wish to keep a note in their swim bag of the names and contact details of next of kin who we may contact in case of emergency.
